Connection beyond the training room

FACILITATORS & GUEST SPEAKERS

Recommended Facilitator & *Guest Speakers*

The programme brings together a carefully selected group of facilitators and guest speakers drawn from four key professional categories. These include experts from Radiant Auditors and Tax Advisors, alongside other highly regarded professionals with extensive experience in IFRS, taxation, auditing, and related local and international regulatory matters.

Our facilitators and guest speakers include experienced Tax Managers, Audit Partners, Finance Professionals and other senior practitioners in their respective fields, bringing practical industry experience and technical expertise to the programme

OVERALL LEARNING OBJECTIVES

By the End of the Programme, Participants Will Be Able To...

Apply Updated IFRS Requirements

Interpret and apply recently issued and forthcoming IFRS pronouncements, including IFRS 18 presentation and disclosure requirements.

Navigate Finance Act 2026

Interpret key changes introduced under the Finance Act 2026 and translate them into practical compliance actions.

Evaluate AI in Practice

Critically evaluate the use of artificial intelligence and automation tools within audit, tax and finance functions, including associated risks.

Strengthen Professional Networks

Build lasting professional relationships across the audit, tax and finance community through structured networking.

Prepare for Sustainability Reporting

Assess organisational readiness for emerging IFRS S1 and S2 sustainability disclosure requirements.

Address Cross-Border Tax Matters

Apply current transfer pricing and cross-border tax principles to real client and organisational scenarios.

Respond to Emerging Professional Issues

Identify and respond appropriately to emerging ethical and professional issues arising from technology and regulatory change.

Translate Learning into Practice

Connect technical training content to practical, real-world application within participants' own organisations.

> *"Every session on the programme is designed to convert technical knowledge into confident, practical application — in the audit file, the tax return, and the finance function."*
